

DOE Former Worker Medical Screening Program

CALIFORNIA

Lawrence Livermore National Laboratory Former Workers

Population Being Served

Lawrence Livermore National Laboratory (LLNL) in Livermore, California, was established in 1952, and has worked alongside the Los Alamos National Laboratory to design nuclear weapons. More recently, Lawrence Livermore was involved more in stockpile stewardship. LLNL is part of the National Nuclear Security Administration.

Organizations Providing Services

Medical surveillance for former DOE workers at the Lawrence Livermore National Laboratory (LLNL) is conducted by Boston University and the University of California at San Francisco.

Current Status of the Program

This project will begin screening in 2007.

Contact Information

Former Workers from this site who wish to receive screening are asked to call toll free at 1-866-460-0628. Further information may be found at: <http://www.bu.edu/formerworker/>.
